- 3) IF ENDS OF YOUR HAIR ARE TOO LIGHT: You can rub entire head with your hands all your hair for 5-10 mins. Can add a little water as if you would start to shampoo your hair but wait to add shampoo.**
- 4) When time is completed, rinse with tepid water (never hot) the color completely off your head, water will run clear when you have finished that step successfully; Than shampoo and wash as normal. Follow with a little conditioner, use only color shampoo.**
